- Protect workers, reduce fire risks, and improve productivity by storing flammable fuels and chemicals in code-compliant safety cabinets;
- High-performance, self-latching doors close easily and securely for maximum protection under fire conditions;
- Fail-safe closing mechanism ensures three-point stainless steel bullet latching system works every time;
- For added security, U-Loc ™ handle comes with a cylinder lock and key set or accepts an optional padlock;
- Haz-Alert ™ reflective warning labels are highly visible

under fire conditions or during power outages when illuminated with a flashlight;

- Patented SpillSlope® galvanized steel shelves direct spills to back and bottom of a leakproof 2" (51-mm) bottom sump and they adjust on 3" centers for versatile storage;
- Cabinets also feature dual vents with flame arresters, four adjustable self-leveling feet, grounding connector, and trilingual warning label;
- Durable lead-free epoxy/polyester powder-coat finish provides excellent chemical resistance;
- Self-close door shuts and latches automatically when a fusible link melts at 165°F (74°C) under fire conditions;
- Unique, concealed self-closing mechanism offers obstruction-free access to contents.
