Protect workers, reduce fire risks, and improve productivity by storing flammable fuels and chemicals in code-compliant safety cabinets

High-performance, self-latching doors close easily and securely for maximum protection under fire conditions

Fail-safe closing mechanism ensures three-point stainless steel bullet latching system works every time

For added security, U-Loc™ handle comes with a cylinder lock and key set or accepts an optional padlock

Haz-Alert™ reflective warning labels are highly visible under fire conditions or during power outages when illuminated with a flashlight

For more information contact us by phone at 450 642-1118 or by email at info@laflammeindustriels.com.

Patented SpillSlope ® galvanized steel shelves direct spills to back and bottom of a leakproof 2" (51-mm) bottom sump and they adjust on 3" centers for versatile storage
Cabinets also feature dual vents with flame arresters, four adjustable self-leveling feet, grounding connector, and trilingual warning label

Durable lead-free epoxy/polyester powder-coat finish provides excellent chemical resistance

Self-close door shuts and latches automatically when a fusible link melts at 165°F (74°C) under fire conditions

Unique, concealed self-closing mechanism offers obstruction-free access to contents
